Our New Year's Dance

The dance given by the Primrose Progressive Circle at I. O. O. F. hall Tuesday evening was a pronounced success, and those who love and adhere to the Tes fel, and some excellent music by psichaseau art are guessing when the Mosquero and Pinehill Valley the next soirce of the Circle will be given. The best part of these little functions is, the proceeds something that everybody is or should be interested in. Among the features was two negro dialects by that versatile artist, Olen preferred. Lench.

Seeding Alfalfa

How to apply the seed to the soil, and how much seed to sow per acre, are questions that are often asked in the growing of alfalfa. In the first place it matters but little how the seed is sown so long as it is distributed evenly over the field. There are several machines made for seeding alfalfa, viz., the hand seeder, the seeder or broadcaster drawn by horses, and the common drill. successfully. If the field to be is small, one of the hand machines may be used, but if the area is large a horse drawn machine is
